## Flyin' Fox Freezers!

The Flyin' Fox freezer is an efficient, simple, and reliable 94 litre sliding lid chest freezer. It comes fitted out with storage baskets divided into 10 sections each holding 20 ice blox. Plus, the internal storage space holds 5 cartons underneath the display baskets.

Well positioned they make it easier for your customers to find their desired blox. Perfect near the cash register, end of counters or shelves.

For information on how to apply for an on loan freezer please email us at [info@flyinfox.com.au](mailto:info@flyinfox.com.au) (no g)

**Please note\*** in order for air to circulate and move freely through the freezer's ventilation ducts (located on the lower back and right hand side) a 10cm space from other surfaces is required.

**Refrigerant:** R600a (Negligible ozone depletion potential)

Input Energy Consumption: 1.1 kWh/24h.

Easy to move for cleaning, fitted with castors, the front two are lockable.

### Required

- Manual Defrost – see info booklet for instructions.
- Glass lid needs to be kept clean – wipe daily.
- Stock needs to be kept tidy for optimal sales.

### Technical Details

Low E Glass Lids: Provide excellent insulation and reduced condensation.

### External Dimensions

**Height:** (mm): 850 (back with castors), 750 (front with castors)

**Width:** (mm): 580

**Depth:** (mm): 690

**Weight:** 48 Kg
